Teak Deck Company Selects Marine Business Advisors to assist in business expansion

JUPITER, FL – (December 1, 2011) – Teak Deck Company today announced the selection of Marine Business Advisors and Jim Bronstien as their key consultant to aid them in growing their business. The opportunity for increased market share in the teak deck market is very apparent for a quality company and Teak Deck Company, a 15-year-old business, is poised for new growth.

“Our capabilities for installing new or replacement teak decks are quite extensive for boats from 25’ up to 150’ and we want more of the industry to know who we are and what we can do. Jim Bronstien’s extensive knowledge and experience in the industry is the perfect complement to aid us in our endeavor,” said JT Tuomela, president of Teak Deck Company. “Real teak is still the best product for decks and this is what we do. It’s all that we do, so we know our trade very well.”

Marine Business Advisors has been guiding and advising marine businesses for the past 7 years and has established itself as a high demand consultancy business for both long and short-term assignments for all facets of the industry. Jim Bronstien, as principal, is a well-known industry executive. His background includes 20 years as President and owner of Rybovich in West Palm Beach. He is now a principal shareholder and board chairman for Saunders Yachtworks in Gulf Shores, Alabama and he also is the principal of a boat rental business in Costa Rica. Bronstien is also a frequent speaker at industry events and an active member of numerous marine industry and community boards.

Teak Deck Company, based in Jupiter Florida, has been fabricating and installing teak decks on boats since 1996. Owned and operated by the highly skilled Finnish native JT Tuomela and his family, Teak Deck Company fabricates and sells ready to install teak decking for boat manufacturers, boat owners and professional contractors at very competitive prices with exceptional quality.

Their teak wood is 100% hand selected vertical grain with their own custom brand of teak deck caulking resulting in a longer life and better appearance and durability than the competition. Custom installations, prefabricated panel or standard panels are all available thru Teak Deck Company.
